## Greetings from One Center One Voice

“Show Your Health Some Love” encouraged Old Dominion Job Corps Center staff to show or demonstrate how we are prioritizing and focusing on our individual health, including but not limited to the COVID-19 vaccine. The “Show Your Health Some Love” wellness program is an ODLE Management led - Center implemented approach towards achieving a healthy workplace by incorporating various health activities within the daily work schedule to promote both students and staff wellbeing. This is a holistic approach towards the health of employees by creating a supervisory health culture.
